

# RYETEC TRACK E-RADICATOR

## ADJUSTABLE LOW DISTURBANCE TOOLBAR AVAILABLE IN S OR HD

The Ryetec Track E-Radicator has been designed for use on both wheeled and tracked tractors to remove any compaction cause by the tractor itself while carrying out cultivations, drill operations, or simply tramline busting with or without an optional packer roller. Causing minimal surface ground disturbance with a large 450mm cutting disc and low disturbance point on a pivoting leg and disc system. It is ideal when used on tracked tractors or when working headlands, relieving compaction and aiding drainage. Available with either full Auto Reset or Shearbar system.

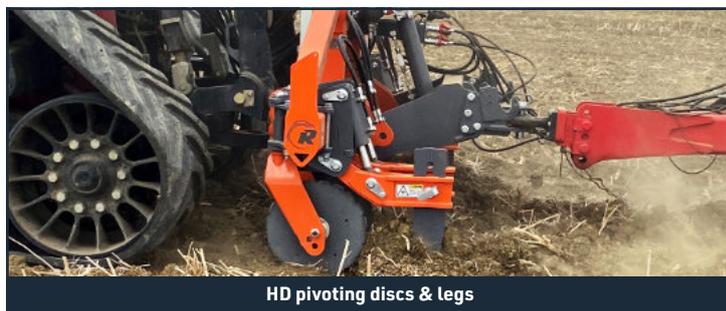

### Standard Specification

The Track e-radicator S is designed for tractors upto 400HP and with the HD been used on machines upto 650HP.

- » **3m toolbar with either 2 or 4 legs & points with tungsten tips:** longer lasting points for reduced running costs & downtime.
- » **Adjustable leg positioning:** legs feature frame clamping system to allow for exact positioning of legs relative to tractor wheel/track width and wheel centres.
- » **Wide range of legs and points available to suit different operations and depths:** these can be accurately and easily adjusted with no tools.
- » **Shearbar or auto reset protection for legs.**
- » **Heavy duty pivoting discs & legs:** allow for ease of manoeuvrability around obstacles, headland following and steering pressure from tracked or pivot steer tractors.
- » **Rear linkage & drawbar:** heavy duty with hydraulic raise and lower to pull rear mounted implements.
- » **Umbilical transfer system:** to convey hydraulic and electrical services to rear mounted implements.

### Options

- » **Extra legs (up to 6):** for full width low disturbance operation.
- » **Optional Seeding Equipment:** ability to drill OSR & cover crops.
- » **Rear packer roller (flat or ribbed):** for stand alone operation.
- » **Alternative legs & points:** customers preferred legs/points can be fitted.
- » **Auto Reset:** where conditions will cause repeated interference with legs.

HD pivoting discs & legs
