

RYETEC REARGUARD

ADJUSTABLE TRACTOR LINKAGE MOUNTED REAR WHEEL SUPPRESSION KIT

Designed to reduce mud, water and debris thrown from large agricultural tyres, the Ryetec RearGuard's provide a practical solution for cleaner and safer operation both in the field and on the road.

Manufactured from robust, high-quality materials, the RearGuard's system is engineered to withstand demanding agricultural conditions while offering reliable protection for operators, vehicles and following traffic. The streamlined design follows the tyre profile closely, minimising spray and mud build-up without compromising manoeuvrability or access.

Easy to install and built for long-term durability, Ryetec RearGuard's are suitable for a wide range of tractors and agricultural machinery, helping to keep roads cleaner, improve visibility and reduce the spread of debris during transport operations.

Standard Specifications:

- » Category 2/3 linkage mounting with two-position adjustment for improved fitment versatility.
- » Heavy-duty 6mm solid pressed rubber upper section with 8mm reinforced nylon rubber adjustable lower flap.
- » Robust, heavy-duty construction with easy width adjustment of up to 3m.
- » Pressed steel width adjusters for enhanced strength, durability, and long-term structural integrity.

Easily width adjustable up to 3m

Heavy duty 6mm solid pressed rubber with an 8mm reinforced adjustable nylon flap
