

CONTRACTOR *ECO* FIREWOOD LOG PROCESSORS

Contractor *ECO* series firewood processors are designed to offer maximum output for operators who require a basic no frills machine. With simple mechanical operation, no electronic systems and featuring tungsten tipped belt driven circular saw blade for quick cutting, low maintenance and minimal waste. The CP *ECO* processors feature fully independent PTO driven hydraulic system to power all hydraulic functions with no reliance on the tractors hydraulic system. The feature a central operator station with joystick control for the intake conveyor, gripping, cutting and splitting functions. An adjustable steel plate controls log length from 200 to 500mm and a hydraulic adjustable splitting wedge then cuts the log into 2,4,6 or 8 pieces. The cut logs are then elevated by a high capacity 4 metre long conveyor which folds for transport and storage.

Hydraulically adjusted and interchangeable multi splitting wedges

Central operator station with convenient two handed joystick controls

CP Processors have the following standard features:

- » Tractor 540 PTO drive
- » Folding intake conveyor
- » Hydraulic log gripper
- » Adjustable steel log length guide (200-500 mm or 8 to 24")
- » Belt driven tungsten saw blade 1000mm diameter
- » Twin joystick control with safety locking operation, 2 handed operation required to move cutting saw
- » Complete hydraulic/mechanical operation with no electrics for maximum reliability
- » 16 ton splitter
- » Hydraulically adjustable 2,4,6 or 8 way splitter.
- » 4 metre loading conveyor which folds for transport
- » Heavy duty chassis
- » Low power requirement 35hp PTO to run the machine
- » 3 point linkage mounting, CAT 1/2 for larger HP

Optional features include:

- » Various log decks
- » Electric motor or engine drive
- » Folding & slewing hydraulic conveyor
- » Support for spare axes

Model	CP1000 <i>ECO</i>
Max diameter of log cm (Inch)	41 (16.1)
Power source	PTO or Optional electric
Standard splitting force	16 Tons
Standard axe	2/4 & 2/6 & 2/8
Circular saw blade diameter	1000mm
Weight	1520 kg
