

RYETEC MARANGON WHOLECROP HEADERS

FOLDING AND FIXED WHOLECROP HEADERS

Quickcut Marangon high capacity wholecrop headers are for both normal farm cropping requirements and energy crops. Available in fixed and UNIQUE folding format, they offer high output reliable operation with minimal maintenance.

The FOLDBAR is a high output wholecrop header like its stable mates but with the ability to fold or unfold and be ready for work in less than a minute, saving valuable time to increase cutting time and minimise wasted transport time.

Standard Specification:

- » 6m Fixed and 6.2m Folding cutting widths.
- » The unique Foldbar hydraulically folds for transport in less than 60 seconds
- » 16 round profile low power absorption discs.
- » Single input driveshaft and totally shaft driven disc bed drive (no chains or belts).
- » Proximity switches ensure correct timing of discs when unfolded on the foldbar.
- » Hydraulic lift cover to adjust for crop flow with excellent visibility of incoming crop.
- » Adjustable skids.
- » Large diameter (830mm) floating auger for high volume harvesting.
- » 3.9 tons with quick attach 5th wheel transport option (Foldbar)

Options:

- » Available for various harvesters.
- » 5th wheel fitting kit (to allow mounting of Kemper transport wheel on the foldbar, not included).
- » Recommended spare parts list.
- » Autofloat system on New Holland.
- » Hydraulically lowering trailer, with optional rear steer (fixed header)

6m fixed header working on a Krone Big X in rye

Shaft drive to disc mower bar, no belts or chains
