

# RYETEC CS700

## HEAVY DUTY SAW BENCH

Contractor circular log saws are built for commercial operators looking for speed and simplicity of operation combined with reliability and low maintenance. They are also ideal for the part time user who is looking for a well built machine which is safe to use and easily operated. Available in various power options these machines are suitable for all log sawing applications. The addition of the optional conveyor system transforms the saw into a very effective sawing and loading system further speeding up operations

### Standard Specification:

- » **700mm tungsten tip blade** - around 300hrs before it needs re tipping
- » **Heavy duty frame construction** - simple robust machine built to last
- » **Extending support bar with rollers and roller in bench** - easily move the log along between cuts
- » **Steel hip roller and log gripper** - easily rock the bench back to cut the log holding it safely in place with minimum exertion
- » **Blade guard (covered at all times)** - operator never exposed to blade

### Options:

- » Various conveyor options up to 5m (various drive options)
- » Hydraulic tilting bench
- » Built to order machines please ask for details

| Model     | Power Source | Cutting Diameter | Weight |
|-----------|--------------|------------------|--------|
| CS600/220 | 16 amp 240v  | 22cm             | 160    |
| CS700/220 | 16 amp 240v  | 30cm             | 165    |
| CS700/380 | 16amp 415v   | 30cm             | 165    |
| CS700/9P  | 9hp Petrol   | 30cm             | 180    |
| CS700/PTO | 540 PTO      | 30cm             | 205    |
