

RYETEC PROFESSIONAL HD FLAIL MOWER

FRONT & REAR MOUNTED

The Professional range offers a robust frame and rotor combination with a range of flail options. They can operate in most conditions, both long and overgrown grass and light scrub (up to 35mm thick) to fine finish lawns leaving a smart rolled finish. The heavy duty transmission with oil immersed cross shaft and remote greasing points allows for easy maintenance and a long trouble free working life. The optional front mounted castor wheels give accurate cutting height control and reduce the possibility of scalping (recommended).

Standard Specification:

- » 1.6m, 1.8m & 2.0m models available
- » 5mm Y flail or 0.6kg hammer flail option - cut through scrub up to 35mm
- » Tripple V belt drive to the rotor
- » Full width height adjustable rear roller - able to leave a striped finish
- » Heavy duty frame construction.
- » 540rpm PTO
- » Front or rear mounted (dual linkage)

Options: (recommended in bold)

- » **Front mounted castor wheels** to follow the ground contours
- » HD side skids
- » Hydraulic side shift

Front Mounted Professional With Caster Wheels

Model	Cutting width (m)	Weight (kg)	Number of flails	Min. tractor hp
