

# Tipping trailers

## Modular

*Lots of different types, options and expansions.*

## Durable

*The complete frame is galvanised and has a long, corrosion-resistant future.*

## Essential

*Indispensable by many agricultural tasks.*

# Tipping trailers

The ZOCON trailers are indispensable for farmers, gardeners and land companies. Shortly, any place where lots of material displacement happens. ZOCON offers a broad range of options, being able to create a trailer seamlessly fitting to the wishes and demands of the customer. All trailers are equipped with a brake system, this can be a overrun brake, hydraulic or air brakes. The tailgate is self-closing, which increases its ease of use. Before the sale, the trailers will also be COC checked, for which ZOCON is certified. This ensures the trailers to have access to a license plate number on the European roads.

## Technical Specifications

Variations: Z030, Z045, Z050, Z080 and Z100  
(Maximal loading capacity is the number multiplied by 100, so Z030 = max 3000kg)

|      | Max. weight (in kg) | Dimensions box (in cm) | Standard tyres | Tipping angle |
|------|---------------------|------------------------|----------------|---------------|
| Z030 | 3.950               | 240x150x40             | 10.0/75x15.3   | 52 °          |
| Z045 | 5.800               | 340x180x40             | 11.5/80x15.3   | 50 °          |
| Z050 | 6.400               | 340x180x40             | 11.5/80x15.3   | 50 °          |
| Z080 | 10.300              | 450x220x60             | 550/45x22.5    | 50 °          |
| Z100 | 12.700              | 450x220x60             | 550/45x22.5    | 50 °          |

## Various breaking options

(Z080 and Z100 excluded of overrun brake)

**With overrun brake:** Braking of the tractor results in a gradual braking of the trailer due to brake cables.

**With air brakes:** For tractors that have air supply, adding air brakes is the right option.

**With hydraulic brakes:** For tractors that have hydraulic supply, adding hydraulic brakes is the right option.

## Optional accessories

### Threeway tipping

Addition to the trailer making it possible to also tip sideways, next to rearway tipping. Z045 excluded.

### Extensions (400mm)

Adding this extension allows the trailer to have more volume. Ideal for larger loads.

## 2-doors tailgate

ZOCON also offers 2-doors tailgate, this is also possible in combination with extensions. The double doors will be made in the standard rear board, giving the user choice to use both functions

## Netting extensions (800mm)

Adding this netted extension allows the trailer to have more volume. Ideal for larger loads.

## Toolbox (30,5L)

Practically mounted toolbox for necessary, small tools and lashing straps.

## Shreds cover

Hood with opening either placed towards the front or rear side. Ideal for collecting shreds.

## Tandem axle

The Z080 and Z100 are dispensable with double axle, next to the single axle edition.

## LED lighting

The standard lighting can be replaced with LED lighting for a more durable and economical use.

## Hydraulic leg support

Alternative for the support wheel to support the trailer hydraulically (Standard equipped on the Z080 and Z100).

# Broad employability

The ZOCON trailers are to be used in its own unique way in many different situations. Every task requires a slightly different approach, in which these trailers manoeuvre along ideally. Hereunder a few examples in which the ZOCON trailers have been used in an unique and own way.

**Small gardening transport:** ZOCON trailers are very suitable for gardening companies. The transport of branches, grass and weeds in large gardens can be well utilised by these trailers.

**Displacement of sand:** For transferring sand, the trailers can be attached to small excavators as well. This way, you'll work as efficient as possible and you keep load and machine altogether.

**Plantation transport:** Internationally the ZOCON trailers have been deployed on a plantation as carrier of pineapples and its waste.

**Bucket trailer:** The ZOCON trailers are also being used a lot behind a crane as bucket carrier.

**Maintenance sports fields:** The ZOCON trailers are ideal of use when it comes to maintaining sports fields or other plots as well.

## Conclusion

The trailers of ZOCON are available in lots of different versions and have in addition a broad range of options to form the ideal machine. The additions are mounted on site, allowing the trailer to be ready for use as soon as it arrives. On the European market, the trailers will be delivered with a COC-documentation. This ensures their access to the European road network. In short, because of the huge freedom of choice for the user, the trailer can add value in countless ways to a broad reach of companies.
